

**YOU CAN.**

## **SWIM THE LONG COURSE.**

Don't let shoulder, arm or elbow pain used for locomotion and increased joint laxity get in the way. Experienced board certified surgeons, dedicated staff and the latest advancements in minimally invasive procedures will ensure that you're in great hands. It's only a matter of time and you'll be perfecting the backstroke and going for the gold! Do it, because now you can. Northwest Medical Center and University Hospital offer the latest minimally invasive treatment options for Carpal Tunnel, Tendon Repair, Wrist Arthroscopy, and other Upper Extremity conditions. These procedures have many benefits such as:

**A Minimal Incision • Decreased Pain • Reduced Recovery Time**
